

Tools for the Electronics Industry

Corporate Wide Productivity

Design for Test and Manufacturing:

- Cadstar, CR-5000, Visula, CircuitCAM,

Assembly:

- Solder Pastes, bars, fluxes, and Stencils
- Aegis CIM software
- Siemens SMT process equipment
- Reflow, Selective, Wave, and Vapor Phase
- ASYS loaders, buffers, conveyors, and routers
- KIC thermal profiling analysis tools
- Data I/O in-line and batch device Programmers
- Ergonomic Lifting Devices
- Conformal Coating Equipment
- Precision Hand cutters

Test and Verification:

- Marantz and KohYoung AOI and 3D Paste inspection
- Hirox Electronic Microscopes and BGA Scopes
- JTAG Board Testing and Device Programming
- X-Ray inspection systems
- Gen3 Solder Paste Analysis and Board Cleanliness testers
- Focalspot soldering stations, BGA/SMD repair workstations
- QA Tech Test Probes

Lead Free Capable:

- Cogiscan device and material tracking tools
- Reflow, Selective, Wave, Vapor, and rework
- Solder Pastes, bars – SN100C and SAC305
- KIC Thermal profiling tools
- Lead Detection Systems

Corporate Wide Productivity Tools:

- Fusion - Trans-Collaborative Manufacturing
- EIS – Trans-Collaborative Engineering
- Cogiscan MSD tracking to IPC/JEDEC J-STD-033
